SYMBOL CODES

"The primary focus is to be concerned with being at peace with finding out who you really are, what you really need/prefer, and being as much of that glorious self as you possibly can, liking every crazy situation, person and circumstance that you, and you alone, have created for yourself with which to grow (if you so choose). Then, you could say with all passion and meaning that your relationship with Source truly does come first...and all else will flow, fearlessly, from that."

(Speaker 2, Feb 2005)

"We are all taking place in the mind and heart of God. We are all existing within God Source. God is not outside there some place. There is a point where science and spirituality come together and the point is consciousness, because consciousness is an energetic substance. God is made of substance, not something intangible that you cannot conceive of. It is a structure of consciousness that is made of substance. There is no difference between the substance that your body is made of and the Body of God. They are all the same substance."

(Speaker 1, Evolutionary Path of Human Consciousness)
